CAUTION

Anyone who uses the Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Dreamcast:

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

OPERATING PRECAUTIONS

To prevent personal injury, property damage or malfunction:

- Before removing disc, be sure it has stopped spinning.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Dreamcast console, especially not in a CD player.

INTRODUCTION

Are you ready?

The power of the Dreamcast brings professional football to life. No, this isn't just the sequel to last year's awesome football game NFL 2K1, or just the successor to the jaw-dropping NFL 2K. This year it's a whole new ball game.

Are you ready?

All of the great features you've come to expect from Sega Sports are there. You've got Exhibition Mode, Tournaments, Playoffs, Franchise Mode, Season Mode, and Fantasy Mode. It's all there and it's been returned for NFL 2K2. Each team's playbook has been updated along with the rosters - you'll be able to run your favorite team just like it's the real thing.

Are you ready?

With NFL 2K, Sega stunned the competition with jaw-dropping graphics and expert gameplay. Not content to rest on their laurels, the team has rebuilt the graphics engine for NFL 2K2 and added tons of new motion-captured animations. The AI has been sharpened to a razor fine edge - you'll have to be at the top of your offensive game to lead your team to the end zone. Use the improved running game to pound the defense and then throw long to your speedy wideouts for the score. On defense, you will have to be on the top of your game, too. The offense's AI will now take advantage of each quarterback's strengths so if you're playing against a mobile QB, you better watch for the rollout.

Are you ready?

Oh, and did we forget to mention Network Play? Yup, you can go online with NFL 2K2 and compete with players from around the country. But this year there's a little bit of a twist. We're going to keep track of all of your wins, losses and dropped connections. Why? To find out who the best of the best is, of course. Each time you head online make sure you check out the Top 50. Do you have enough game to crack this elite list of players?

STARTING THE GAME

Are you ready?

Pop in your disc. Get out of the locker room and onto the field. This is NFL 2K2 and this is the ultimate professional football experience. Are you ready?

STARTING THE GAME

NOTE: Sega Sports™ NFL 2K2 is a one to four-player game. Before turning the Dreamcast Power ON, connect the controller(s) or other peripheral equipment into the control ports of the Dreamcast. To return to the title screen at any point during gameplay, simultaneously press and hold the A, B, X, Y, and START buttons. This will cause the Dreamcast to soft-reset the software and display the title screen.

CONTROL SUMMARY

NFL 2K2 is designed with analog functionality in mind. The SEGA Dreamcast analog controls provide a fuller range of motion and add to the overall depth of the game. By going to the Game Options -> Controller menu however, you can change the control scheme to use the D-Pad instead. Either way is acceptable, it's a matter of personal preference.

To highlight and select specific menu items, press the Analog Stick (or D-pad) in the direction of the menu item until it highlights. If you have questions when viewing most menus and screens, press the Y button for Command help.

MENU CONTROLS

Button	Action
Analog Pad (or D-Pad)	Highlight menu options
A	Select / Scroll through the highlighted selections.
B	Cancel selection / return to previous.
X	Change menu focus
Y	Command Help Menu

Coach's Corner: Getting Help

If at any time you need help navigating through the menus, press Y and a help screen will help you find the way.

GENERAL GAMEPLAY CONTROLS

Button	Action
Start (during gameplay)	Pause Menu
Analog Pad	Highlight formations or play sets
D-Pad (at line of scrimmage)	Change control of your player

CALLING PLAYS

Button	Action
R/L	Toggle through formations
A	Select formation or play
B	View previous formations or play sets
X	Flip play or formation

NOTE: You can also call plays from your VMU (see Game Options Menu on page 20.). With VMU Play Calling, controls for selecting plays are the same as if you used the main screen. If you press the X Button (flip play formation) a two-way arrow icon will appear on the main screen to indicate a successful play flip.

Coach's Corner: Bluff Mode

Hey, no cheating! When you are playing against another human opponent, the last thing you want them to know is what play you are calling. To keep the information secret, press the A button and keep it held down. You can then scroll through other pages of plays or formations to hide your play. When you release the A button, it will call the play you originally selected.

When you are playing a game with more than one person per team (e.g. two-on-two), either player on the team can select a play. If you are on offense, the first player to enter a play will be the quarterback. Be careful though, both players will be able to select the play at the same time, so you will want to designate who the play-caller will be.

If you have VMU Play Calling activated, both players can cycle through the plays on the VMU. However, only the player who is plugged into the priority controller port will be able to view the plays on the VMU screen (Port A has priority over B, C, and D; Port B has priority over C and D; etc.).

ON OFFENSE

ON OFFENSE

Coach's Corner: Play Calling

Stuck on what play to call? Then ask NFL 2K2 for assistance. During play calling, press the A button once and either the offensive or defensive coordinator for your team will suggest a play. Press the A button again to accept the selection.

BEFORE THE SNAP

Button	Action
Analog Stick L/R	Send eligible receiver in motion
L/R	View receiver's button assignments, player names and fatigue levels.
A	Hurry players to the line of scrimmage / snap ball
Y	Call up the Audible Menu, press A, B, or X to select an alternate play. Press Y again to cancel.
X	Lower crowd noise (quarterback)
B	Fake snap signal

Coach's Corner: No-Huddle Offense

Time running out? Need to score quick? Want to try catching the defense off guard? Then try running the no-huddle offense. Press the Y button immediately after completion of the play to quickly run the same play again. You can always call an audible once you've gotten your team set at the line, you just need to hurry them back to get the play off quickly.

RUNNING

Button	Action
A	Speed Burst / Power Move
L or R	Stiff Arm Left or Stiff Arm Right
L+R	Juke Move
X	Dive
Y	Hurdle or High Step
B	Spin Move
D-Pad	Lateral the ball to the closest teammate behind you.
Instant Energy	Press and hold A while running to fill the player arrow completely, then press any special move button to perform a more powerful move.

Coach's Corner: Power Moves

Instant Energy only lasts for a short period of time. Use it sparingly, as overuse can increase the likelihood of a fumble.

PASSING

Button	Action
Any Button	Pass to that receiver (double tap to fake)
D-Pad	Throw the ball away

QUARTERBACK SCRAMBLE

Even the best offensive line is going to let a defender through every once in a while, so you'd better be ready to get out of the way. Hold down the R Trigger and your QB becomes a runner and you can scramble out of the way. Use the R Trigger with the buttons below to pull off some power moves to evade would-be tacklers. Once you've crossed the line of scrimmage, you can't pass the ball anymore, so you can let go of the R Trigger and run the play like a normal running back would.

Button	Action
R+L	Juke Move
R+A	Speed Burst / Power Move
R+B	Spin Move
R+X	Slide / Dive
R+Y	Hurdle

Coach's Corner: Throwing on the run

Sometimes the defense will bite on a QB scramble and the cornerbacks will come up to try and tackle him. But as long as you are behind the line of scrimmage, you can still pass the ball. So, if you see a cornerback leave his receiver, let go of the R Trigger and pass the ball.

MAXIMUM PASSING

If you want total control over your offensive results, turn on Maximum Passing from the Controller Assignment Screen (see page 21). With Maximum Passing activated, you can lead your receivers to thread the ball in front of, behind and around the defenders. To use Maximum Passing, press the Analog Stick in the direction in which you want to adjust the throw. Press a little for a small adjustment; press harder for a bigger adjustment. For example, to lead the receiver, press Up on the Analog Stick. To throw behind and to the left of a receiver, press Down and Left.

Coach's Corner: Passing

With Maximum Passing you've got total control over getting the ball into the receivers' hands. Tapping the pass button lobs the ball to the receiver - that's good for letting a receiver run underneath it, but gives time for the defenders to close on the ball. Holding the pass button down longer (making sure to release it before the ball leaves the quarterback's hand) will result in a normal throw. Finally, holding down the button past the ball's release will result in a bullet pass - great for when you have to get it to the receiver quickly.

CATCHING A PASS

Button	Action
B	Select receiver nearest the ball
X	Dive for pass
Y	Jump for pass

Note: When catching a pass, it is not necessary to press an action button, but doing so will increase your chances of successfully catching the ball.

Pump up the crowd

Call audible. From the Audible Menu, press A, B, or X to select alternate play. Press Y again to cancel audible.

Coach's Corner: Hands Free

Would you rather be the strategist or the tactician? On defense you don't have to take control over the players - you can let the killer AI take care of it if you want. Just make sure you don't touch the controller (either moving the analog stick or pressing a button) and the AI will do the rest. If you do touch the controller, it's up to you - you will be in control of one of the 11 players on defense.

AFTER THE SNAP

Press A while running to fill the player arrow completely. Then press any special move button to perform a more powerful move.

DEFENSIVE LINE

NFL 2K2 contains a series of special moves for the defensive linemen, including spin, club, under and swim moves. Depending on a player's position and attributes, one of the moves will be performed when the special move button is pressed.

Button

L

R

Action

Perform a move to the left

Perform a move to the right

*Note, you have to be engaged by a blocker to execute a special move.

Coach's Corner: Using The Right Player

Before the snap, you can use the D-Pad or the B Button to select which defender you are controlling. Try to use a lineman or a blitzing linebacker or safety - that way, all you have to worry about is getting to the QB or hitting the running back in the backfield. If you select a cornerback or a safety that is dropping back in coverage, you won't be able to see the man you're supposed to be defending if he runs off screen. This leaves you open for big pass plays.

SPECIAL TEAMS

SPECIAL TEAMS

KICKING THE BALL

1. Set the ball trajectory and direction with the analog stick. Be sure you take into account the movement of the arrow, it will drift if you let go of the analog stick.
2. Press A to snap the ball / start the play.
3. Press A again to stop the power meter as close to the top as possible for a booming kick.

RECEIVING PUNTS AND KICKOFFS

Button	Action
Analog Stick	Control return man after reception
D-Pad	Lateral ball after reception
Y (before catching ball)	Fair Catch (on punts only)
Y (after catching ball)	Down the ball (in the end zone only)
Hold L or R	View selected player names on both teams

Coach's Corner: Special Teams

Having quality special teams can make a difference in the game. Pinning the opponent inside their own 5-yard line or nailing a 40+ yard field goal can be key. Make sure you work on your kicking game as well as your offense and defense.

REPLAY CONTROLS

REPLAY CONTROLS

Need to see that play again? Want to rub it in your friend's face after the big score? Then bring up the Replay feature of NFL 2K2 from the pause menu to view the last play again.

A	Play at real time speed
B	Zoom Out
X	Zoom In
Y	Replay Panel ON / OFF
L	Rewind (analog)
R	Fast forward (analog)
D-Pad	Move aim indicator
Analog Stick Up	Pan High
Analog Stick Down	Pan Low
Analog Stick Left	Pan Left
Analog Stick Right	Pan Right

Note: While moving the aim indicator, you can also "lock on" to any player to follow him throughout the entire replay. To do so, simply move the aim indicator directly on top of whatever target you wish to track.

Randy Moss Bio

When the Minnesota Vikings need a big play they know who to turn to - No. 84, Randy Moss. The defense knows it too, but there's nothing they can do to stop him. Over the defenders, under the defenders, one-handed, two-handed, forwards or backwards, all the QB has to do is get the ball near him and Moss will come down with it. In 1998, the rookie sensation from Marshall University caught 69 passes for 1313 yards. Ok, nobody knew how good he was - the defense would catch up to him in his second season, right? Wrong. His encore performance was 80 catches for 1413 yards. He topped that in year three with 77 catches for 1437 yards. What will year four hold? Find out in your season on NFL 2K2 and watch him on television each week.

EXHIBITION PLAY

Now that you've got all of the basics down, let's head on out to the field and throw the pigskin around. Here's the flow of all the menus and screens you see as you set up an Exhibition game.

CHOOSING TEAMS

Use the analog stick to move your controller icon to either the left (visitors) or the team on the right (home team). Then use the L and R triggers to scroll through the list of all the teams available in NFL 2K2.

CONTROLLER ASSIGNMENT SCREEN

Once you've selected the teams, the Controller Assignment screen appears. Press the analog stick or D-Pad LEFT / RIGHT to align your controller with the team you wish to command. SELECTING YOUR PLAYS

If you want to get to the Super Bowl, you'll have to have three key ingredients: talent, teamwork, and execution. This isn't old school AI where you could call the same plays over and over again. To win, you are going to have to mix up your plays on offense and defense. Play to your team's strengths. If you have great cornerbacks, you can gamble more with blitzes and man-to-man coverage. If you have a great running back, then pound the ball out on the ground. For the offensive playbook, passing plays are displayed in blue and running plays are displayed in red.

PAUSE MENU

PAUSE MENU

The Pause Menu allows you to stop gameplay and call a time out, select your audibles, make substitutions, view the replay, change the game options and controller configuration, adjust the game camera angles, and view the current stats. When you are playing with more than one person, the player who pressed the Start Button to enter the Pause Menu has control of selecting all of the above options.

GAME MODES

From the Main Menu, you've got a ton of choices. Here is a quick description of all of the different game modes that NFL 2K2 has to offer:

PRACTICE

Practice makes perfect. Head on over to the practice field to learn the formations and plays of your favorite team. Fine tune the running game, learn the timing of your passing routes, and find your defensive positioning. Once you're into Scrimmage Mode, you have a number of different styles of practice.

Special Move Practice	Get a feel for the controller and how to perform special moves
Full Scrimmage	Line up against another team
Offense Only	Work out the kinks in your offense without a defense to get in the way
Scrimmage Line	Where you will be starting the play
Direction of Play	North (up the screen) / South (down the screen)
Randomize Defense	Set what type of defensive formation the CPU can call

GAME MODES

Randomize Offense

Set what type of offensive formation the CPU can call

Offense Play Type

Set Offense to practice Pass, Run or Both

Randomize Down

Select the play situation

Defensive Play

Offensive Play

Pick a specific Offensive play to practice against.

TOURNEY

Choose either to play in a new tournament or load a previously saved one. Select your teams and determine human or CPU control for each team of the 4, 8, or 16-team tournament that you are running.

SEASON

Take your team through the regular season schedule. Compete for a playoff berth against the best of the league. The three division champions and three wild cards make the playoffs from each conference. Do you have what it takes to make it all the way to the Super Bowl?

PLAYOFFS

Do you want to skip the regular season and go straight to the playoffs? This is your chance. You'll start out with a view of the playoff brackets. As you win each game, you'll move a step closer to the Super Bowl. You can let the CPU simulate any game in the playoff bracket, but be careful, this is a do or die chance. If your team loses, you're out of the playoffs and watching the rest of the games from the sidelines.

FRANCHISE

Franchise Mode is a lot like Season Mode. You pick your team and go through a full season. But it's at the end of the season where Franchise Mode is different. After the postseason is complete, you will have to make decisions about your team. Players will retire, contracts will be up and free agents will have to be signed, and then there is the college draft. Keep in mind the salary cap as you guide your team from season to season.

FANTASY

This is your chance to draft your own team and play out a regular NFL season. Compete against 31 CPU and/or human opponents. Make sure you draft your team with depth in mind. You never know when the starter is going to go down and his backup will have to step in. If you don't feel like drafting into the later rounds, let the computer take over once you have the core of your team set.

QUICK START

NFL 2K2 will pick two teams at random for a quick exhibition game.
